

About Me

I have learnt everything from configuring operating systems, servers and routers to hardware repairs. Other projects that I have worked on include using a Raspberry PI to code a stopwatch and SketchUp for 3D modelling. In my current field of study as a junior software developer, I have learnt how to write HTML, CSS, and JavaScript code. In my spare time I do gaming, singing and playing the guitar.

Education

- **2024-**
Tartu Vocational college
Junior Software Developer
- **2015-2017**
Võrumaa vocational college
